What is your country's biggest environmental problem?

Hello, my name's Nydja and my question is what is your country's
() () ()?

Coming from the United States of America, I'd have to say ()
() () that my country's worst environmental problem
would have to be () () of the people.

The environment didn't get this way () () (),
and for change to happen, it () () () first the
() of man, so until we change () () as far
as waste, land clearing and just () abuse, nothing
better's gonna happen, so () I think the problem in
America for the environment is the people.
