

Staff: Hello. How can I help you?

Jun : Well... I'd like to rent a car just for one day.

Staff: Sure, what kind of car would you like?

Jun : I don't know... What kind of car do you have?

Staff: Here is the list. We have SUV, sports cars, compact cars...

Jun : We're gonna go on a day camp, so SUV sounds good.

Staff: How about this car over here? It's easy to handle.

Jun : Great. I'll take it, then.

Staff: May I see your license and credit card, please?

Jun : Sure, here you are. Should I get a car insurance as well?

Staff: Just in case, I would recommend so.

Jun : Ok, then, could you add a full coverage?

Staff: Sure. Is there anything else you would like?

Jun : Well... Actually this is my first time to drive in this area.

Is there any particular rule that I should know? Like parking signs or protocols at gas stations...Something like that.

Staff: Sure, basically it should be on this paper here,

but you know at gas stations, you have to pay before you start pumping. Otherwise, you can not fill the tank.

Jun : I see! That's good to know. And can I park on the street?

I know I can not park the car on a red curb though.

Staff: Right. That means there is a fire hydrant. But other than that, you can park on the street where there is a parking meter.

Jun : I hope the system would be the same as my county's.

Staff: Here is the instruction for parking. You can take a look.

Jun : Oh, wow, thank you! I appreciate it!!

Vocabulary & Expressions

- traffic signs / parking signs
- buy / get / apply for insurance
- go on a camp
- have good fuel efficiency
- fill the tank / pump the gas / put petrol in my car
- check the protocol / instruction
